Synonyms:

Describe this invention in your own words:

The invention relates to an online based real estate transaction system that facilitates closing on a property purchase, the selection of a lender and loans from a plurality of options as well as the selection of a title insurance provider and policy from a plurality of title insurance providers and policies. The invention also makes use of digital signature technology to securely sign and document the transaction. Of important note is claim 23, which qualifies conditions for closing into an active or passive category.

Class/ Subclass:

705/1,4,26-27

Additional comments:

Attachment: No
